Returning To School During COVID-19

By Heather Androsoff
We have done a good job of social distancing and staying at home.
Less people are getting sick with the Corona virus.
Some places will start to re-open gradually.
Schools are re-opening soon!
We need to be careful so that we don’t spread germs at school.
To keep everyone safe, things will be different at school.
Some teachers will stay at home.
Some students will stay at home.
Learning will take place at school and online.
Students who come to school will attend in smaller groups.
Students who come to school will attend part-time.
Parents might be asked to stay out of the building to limit the amount of people inside.
Everyone entering the school needs to make sure that they are healthy.
Anyone who is feeling sick needs to self-isolate at home so they don’t get others sick.
Some people might be wearing masks or gloves at school.
Everyone that enters the school needs to wash their hands with soap for 20 seconds.
Using hand sanitizer at school is also a good idea.
Some parts of the school might be closed.
The classrooms will look different.
Many things will be put away.
We will not be able to share books at school.
We will **not** be able to share toys at school.
We will **not** be able to share supplies at school.
We will **not** be able to share equipment at school.
We will **not** be able to share food at school.
We need to limit the things that we touch so that we don’t spread germs.
We also need to physically distance ourselves from others at school.
Line-ups at school need to have larger spaces between each person.
We will **not** be able to hug others or hold hands with others at school.
Students will **not** sit together at the carpet.
The tables will be spread out, instead of in groups.
Students will sit at their own table.
Students need to stay at their table and do their jobs on their own.
The playground will be closed.
Students will need to find other things to do outside, and keep their distance from others.
Friends from other classes might not be outside at the same time.
There will not be large gatherings at school, like assemblies.
Some of the programs might be cancelled.
There are many things that we will be able to do at school!
It will be nice to be at school again.
It will feel good to see some familiar faces from a distance.
It will feel good to socialize with others from a distance.
It will feel good to learn at school.
These changes at school are temporary. They will not last forever.
The custodians will work hard to help keep our school clean.
The teachers will help everyone to stay safe.
When it is time, things at school will be more relaxed.
For now, everyone needs to follow these safety rules.
Being cautious at school helps to keep everyone safe and healthy!
