

# Staying Home At The Start Of The School Year During COVID-19

By Heather Androsoff

Digital social stories for school and home that support children's social-emotional learning and development.

We are doing a  
good job of  
physical distancing  
and staying at  
home.

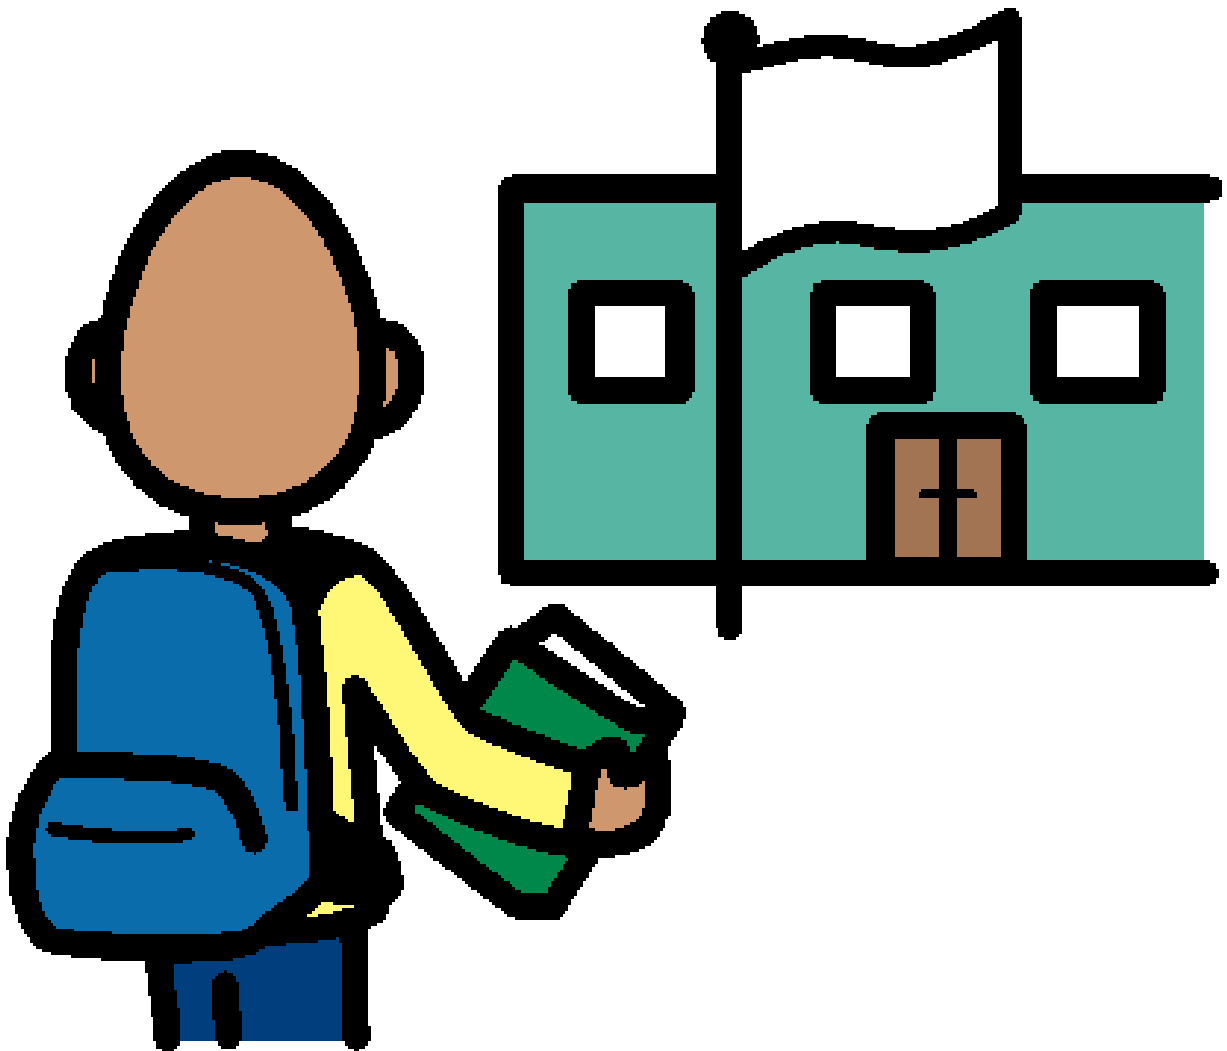

There are still some  
people who are  
sick with the  
Corona virus.

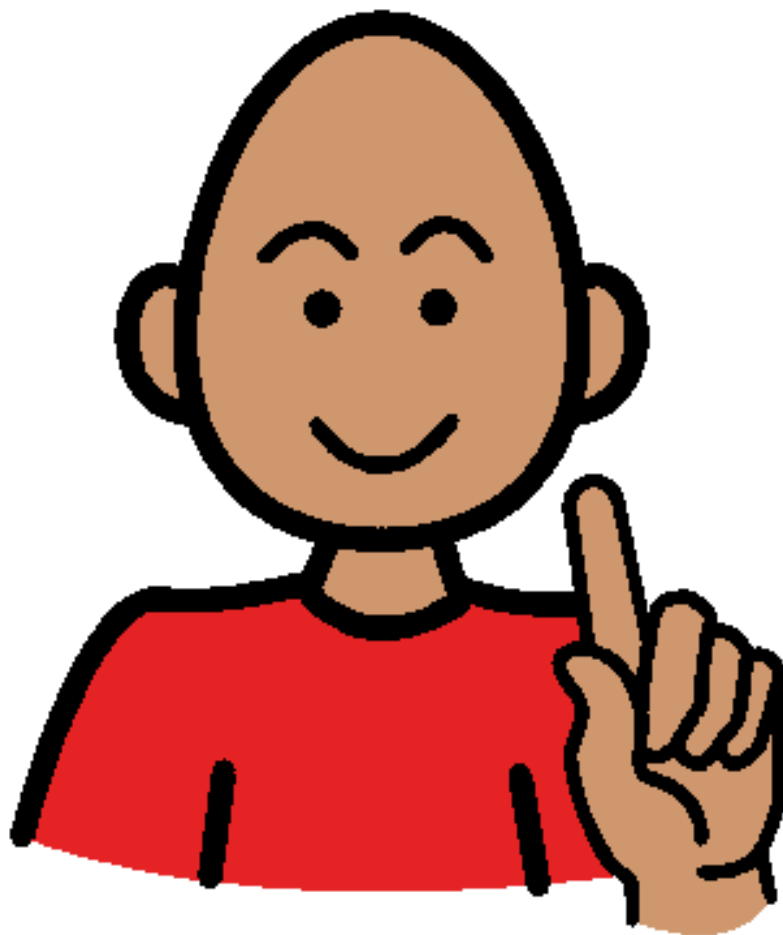

Some places are re-opening with new rules to follow.

Schools are back in session!

Not everyone is  
returning to school  
right away.

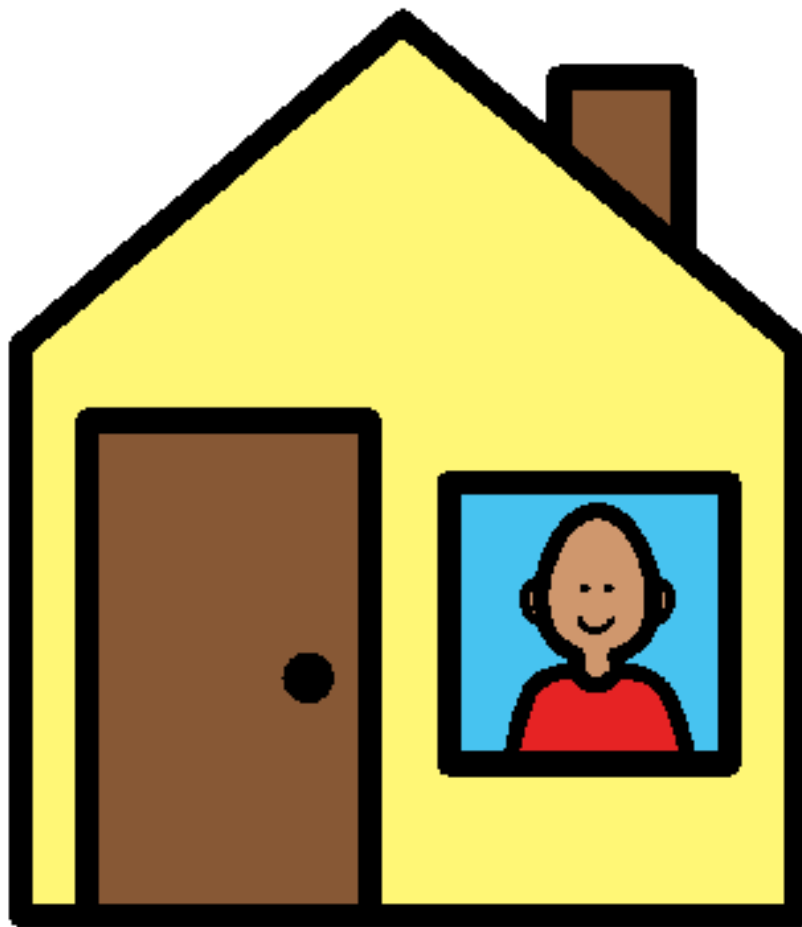

Some teachers are staying at home.

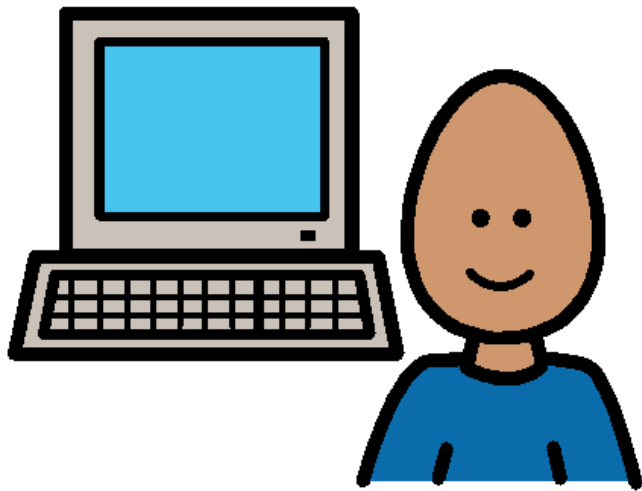

Some students are staying at home.

Learning is  
happening at  
school and online.

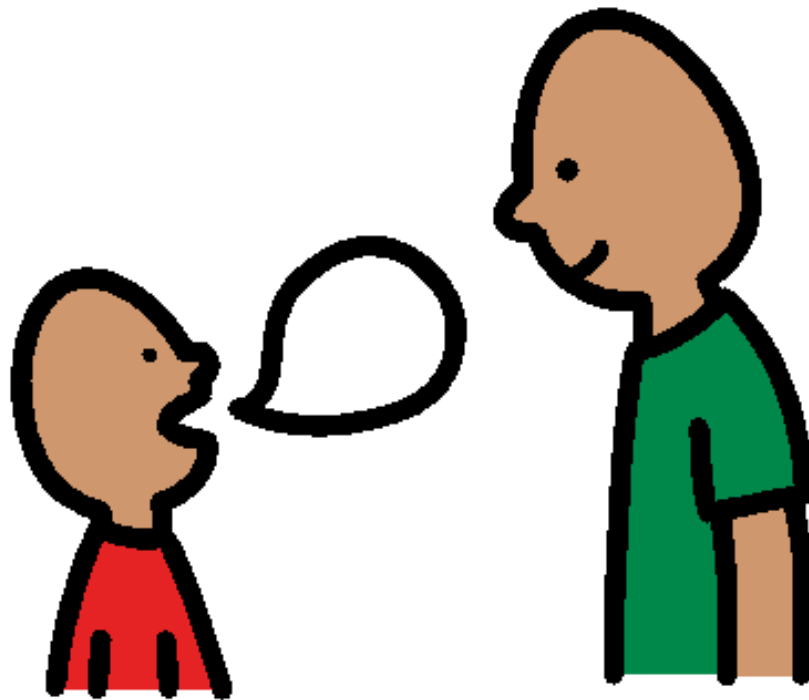

My parents have  
decided that I am  
staying at home for  
now.

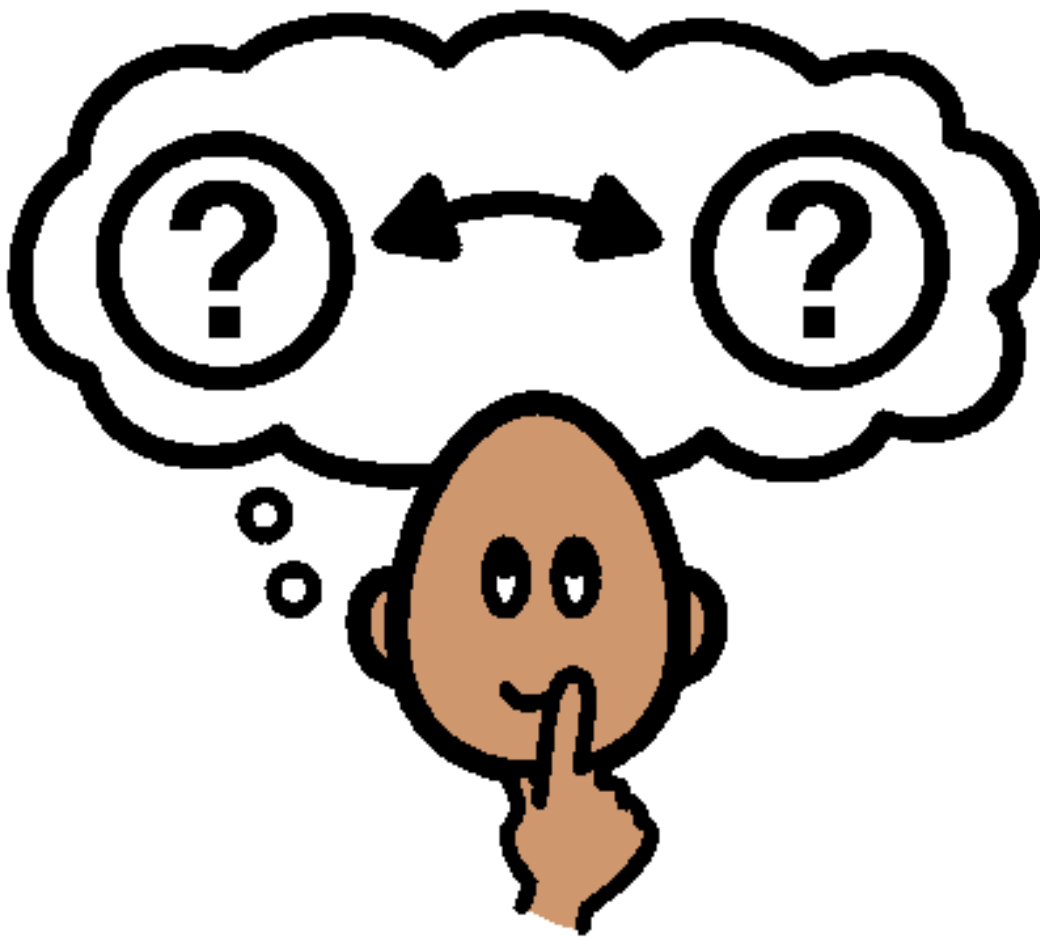

My parents make  
the big decisions for  
our family.

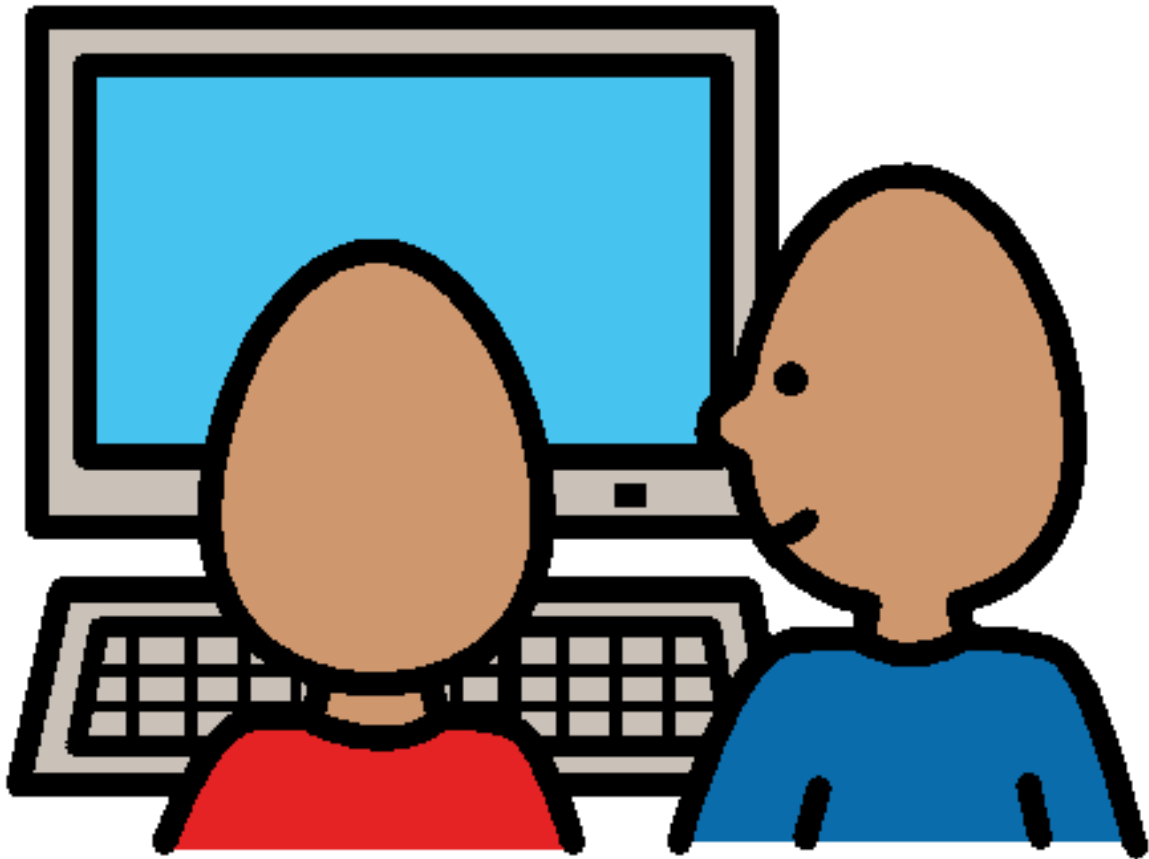

I ask my parents  
why I need to stay  
at home so that I  
understand their  
thinking.

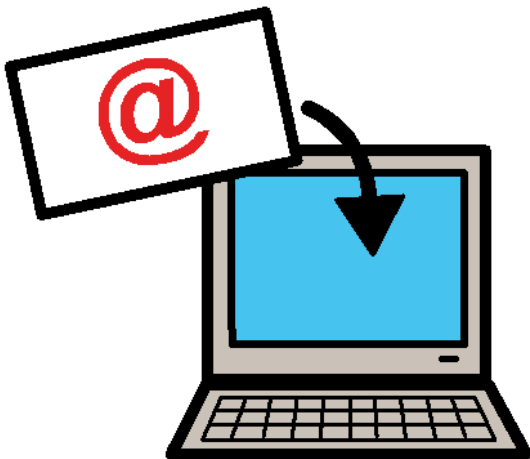

Each family makes  
the choice that is  
right for them.

I learn from my  
teacher online.

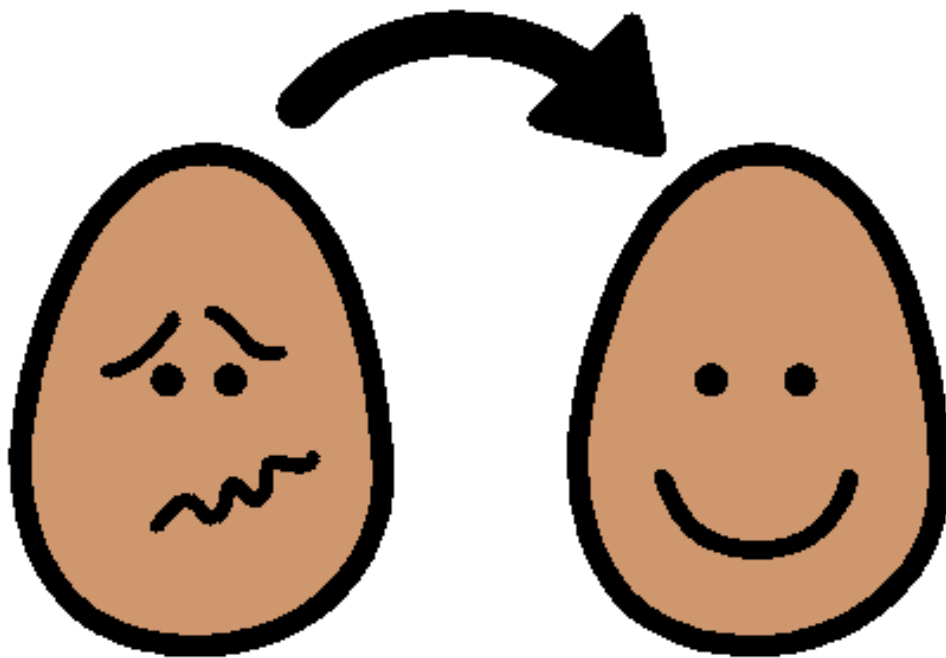

I connect with my friends in other ways.

This situation is only temporary. It will not last forever.

I am patient and I  
try my best while I  
learn at home.

When the time is right, my parents will say that I can go back to school.

It will be great to  
see everyone at  
school again!
